Province announces major Crown Land policy change

The government of Ontario has just announced a significant change in policy with respect to the authorized and unauthorized use of Crown Lands by cottagers. In the past the unauthorized construction of boat houses and docks on Crown Lands under water and to a lesser extent the 66 foot shoreline reserves, has been a major issue in many cottage areas, becoming especially critical in cases where forced removal appeared to have become a distinct possibility. In other cases, cottagers have offered to purchase unused 66 foot road allowances, without making any headway. The problem has occurred recently in the Thousand Islands area, and even more recently in Lutterworth Township here in Haliburton.

Progress has now been made, and the Federation of Ontario Cottager's Associations (FOCA) has just released the text of policy changes to be implemented by the Ministry of Natural Resources (MNR), which should ease this problem. The new regulations have been developed through a consultative process that has extended over the last three years. Instrumental in this process were Frank Miller, Treasurer of Ontario, James Auld, MNR and A.O. (Bert) Shingler, representing FOCA. Mr. Shingler is a recently appointed Executive Director of FOCA.

The new regulations will facilitate the purchase of unused road allowances and will regularize the status of docks and boathouse which have been built without authorization on Crown Lands under water i.e. lake and river beds.

In the interest of clarity we reproduce the new regulations verbatim as released by Mr. Shingler of FOCA.

A) MNR will not object to the closure and disposition by municipalities of their 66 foot road allowances, and MNR will favourably consider closure and disposition of 66 foot road allowances in Townships without municipal organization or will sell 66 foot Crown reserves inside or outside of municipalities when the owner(s) of adjoining land request title to those 66 foot strips, provided that such action will not adversely affect MNR programs or will not conflict with existing or proposed public use.

B) The fees for selling or leasing by MNR should cover only the Ministries administrative costs.

C) In future dispositions of public land, the fixed 66 foot shoreline reserve should not be imposed where a reservations considered necessary, it should it should be a width shape hat suits the situation.

D) Existing docks and boathouses for private use, located on Crown Lands under water, will be viewed as necessary appurtenances to the ownership and maintenance of waterfront property, and the owners will be permitted to use the Crown Land so occupied without written approval or palment fees.

E) Existing and future private occupations of Crown land under water, comprised of land fill and /or structures with living quarters, must be regularized at fees based on Market Value of the Crown land occupied.

F) Beginning from a specific date, i.e. Jan. 1/80, all future proposals to construct facilities whether for privat or commercial use, on Crown land under water will be subject to written approval from: 1. The municipality where its by-laws require a building permit or similar approval. or 2. MNR district manager where no municipal-controls exist.

These are the important developments, and the FOCA has announced that a public meeting will be held in Toronto to explain and dicuss the implication

Highest honours at Hal. Legion Awards Night

Haliburton Legion Branch 129 held their annual Honours and Awards night last Saturday evening. The highest honours went to the above Legionnaires on this very special evening, the prestigious "Past Officers Medals." Back row left to right: Lloyd Coneybeare, Don Johnston,

Robert Bannon, Harold Broadhagen (50 year Pin) and Deputy Zone Commander, Merrill Dunn. Front row, left to right: Cliff Dawson, Allin Cooper, Frank Roberts and Mel Robertson. More photos appear on pages 6 and 7.

Arizona woman totals 4-wheel drive vehicle, hits rail fence

MINDEN — As far as traffic accidents were concerned, OPP had a very uneventful week, investigating two collisions with damages totalling \$4,300.

Early last Wednesday afternoon a two car collision occurred on Hwy. 121, at Cedar Ave. in Haliburton.

Robert Pincombe 58, of Haliburton, attempted to make a turn onto York St. and collided with a 1970 car driven by John Brohm 54 of Donald.

Police report that Pincombe has been charged with making an improper left turn. Pincombe's car suffered \$800 damage in the mishap while the Brohm car was damaged for \$500. PC Bob Wood.

On Friday evening on McCrackens Road (a private road) in Minden Twp., a single vehicle collision occurred with more than \$3000 damage the result. Diane M. Varner 23, of Paradise Valley, Arizona, was westbound when her 4 wheel drive truck struck a rail fence. PC Al Barnes.

Red and White store soon to be built on Highway 35, Minden

According to owner-operator Michael Easton of Haliburton's Red & White Foodmaster, plans for the development of a new store on the Peterborough Lumber site in Minden have been given the go ahead.

Mr. Easton said that he has ordered counters and the necessary machinery for his new store and has also hired a manager, Mr. Bill Kulas of Toronto. Mr. Kulas and his wife Ginger will live in Minden and fortunatley, are not strangers to the area having lived here for a time and Mrs. Kulas being the former Ginger Chambers of Carnarvon.

The present 13,700 sq. foot building will have another 5000 sq. foot addition built on the front as soon as weather and ground conditions permit Mr. Easton added, and hopefully the official opening will take place in late June. The store is expected to employ 30 people during the summer months and about 15 during the winter.

Council for Anson, Hindon and Minden gave their approval for the store on the PL site in a tight 2-1 vote last month with Reeve Nesbitt stating that he had wished the development could take place in Minden's downtown core.

When the store is opened, Minden and area residents will have the option of shopping in two Red & White's.

of the new regulations. A spokesman for FOCA noted that all cottagers are welcome, and representatives of cottage associations were urged to make a special effort to attend.

Prentice Roads new Johnson dealer for Minden and area

Stephen Berry of Prentice Roads Ltd. told The Express this week that their firm had recently acquired the Johnson Outboard Motor dealership for the Minden area.

Mr. Berry said that Prentice Roads had been approached by Mr. David Dusome of the Outboard Marine Corporation (OMC) in the fall of 1979 and after some consideration, accepted the franchise.

Prentice Roads, known primarily for their snowmobile and mobile home dealership were eager to expand into the marine business Mr. Berry said, and in addition to our present lines we have become the franchise dealers for Thundercraft fiberglass boats, Sea-Nymph aluminum boas and Langford Cedar Strip canoes.

Accordingly, Prentice Roads also hope to extend the same high quality of service that has made them well known in the past with snowmobiles, to the new Johnson motor line and have two licensed marine mechanics on staff.

The local firm will also sell sailboats and easy-load trailers and are presently well on their way to attract summer business with several new boats and outboards on display.

May and June Kinsmen Club events are set now

MINDEN — The Kinsmen Club of Minden have the dates set and up on their new bulletin board at Kawartha Dairy on Highway 35. The Mayfest dance, always a big event on the Kinsmen calendar is slated for the 17th of May while the equally popular Marathon Draw dance will go on June 20th. Both events are to be held at the Minden Community Centre.

Ontario schools to receive wildlife information kits

How to tell a moth from a butterfly or one bird species from another are outlined in a wildlife kit to be distributed to public and secondary schools throughout Ontario by the Ministry of Natural Resources during National Wildlife Week, April 7-13.

Educational kits with the theme "Wildlife In Your Backyard" include a color poster with hints on what to look for on nature hikes or neighborhood strolls, as well as information on wildlife behaviour, food and habitat.

Material was compiled by federal and provincial wildlife agencies. The kit was produced by the Canadian Wildlife Federation.

"As is our custom, my ministry is pleased to support the Canadian Wildlife Federation in focusing attention on National Wildlife Week," Natural Resources Minister James Auld said today.

"The material we are sending out to Ontario schools will, we hope, make students more aware of their local environment as a habitat for wildlife."

National Wildlife Week is held annually to commemorate Jack Miner who established the internationally known bird sanctuary at Kingsville, Ontario, southeast of Windsor. After his death in 1944, the Jack Miner Migratory Bird Foundation, founded in 1931 to

administer the Kingsville sanctuary, continued to operate under family direction.

Ohio-born, Jack Miner (1865-1944) came to Kingsville with his family when he was 13. As a young man, he launched the first Ontario game protection association, gradually established a haven for ducks and geese, and pioneered the banding of birds to establish their migration patterns.

Draft bill on Health Services could be dangerous — Eakins

In December of 1978, the Ontario Ministry of Health appointed an interministerial committee to examine the issues and options affecting all aspects of consent to health care services.

This committee has recently submitted its recommendations in the form of a draft bill to be presented to the Ontario Legislature.

The committee has recommended that legislation pertaining to the age of consent for medical procedures on incompetent individuals be amended.

The purpose of this amendment is to give greater legal protection to health care providers and care institutions.

Widespread opposition to this proposed bill on medical consent is emerging across the province. John Eakins, MPP for Victoria-Haliburton, feels this bill, if approved as drafted could be dangerous, for it would permit abortion and treatment of venereal disease as well as other medical treatment without parental notification or consent.

A Toronto lawyer has described it as a triumph of technology over humanity as the rights of the individual-minors and parents of the mentally handicapped would no longer have the full protection of the law.

The bill would provide for doctors to treat those 16 years and under whom they deem mature enough to understand the consequences of the procedure.

Eakins feels that pursuing legislation in such sensitive areas by our government, it is absolutely necessary that the press, religious denominations, family oriented associations, and other public groups be kept fully informed and given specific and ample opportunity to submit recommendations.

Wilberforce man charged with fraud of welfare claim

WILBERFORCE—Last July 29th, 1979, W. J. Donald Outram 30, of Wilberforce, applied at the Municipality of Dysart et al for welfare assistance after he had suffered an accident in 1976. During July to April 10th of this year, Outram was receiving assistance from the municipality, as well as working at a business in the area. The earnings had not been reported.

As a result of an investigation by Minden OPP Constable Al Bibby, Outram has been charged with fraud and will appear in Minden Court, May 13th.

We know a fellow who always travels thirst-class.

STANHOPE NOTES

by A. F. Stevenson

Sanhope Airport committee advise that they are having a dance on April 26th, at Stanhope Fire Fighters Community Hall. The purpose of the dance is to raise funds to help meet the cost of holding the Fly-In at Stanhope Airport on June 15th.

Always a popular event in Stanhope. The Fly-in Committee are busy with plans for this year and while no firm program has yet been arranged. The committee state that the program will be up to a high standard.

On the matter of Airport Activity there is a very serious effort on foot to establish a parachute school at Stanhope airport, and since the principals involved have a high record of achievement in this field it can be considered an interesting possibility.

Incidentally anyone wishing information RE the dance should call Stan Moore or Derek Rolfe or Mrs. Pam Rolfe.

We recently recieved a letter from Dr. Tom Brydges of the water Quality Branch of the Ontario Ministry of Environment, in which he discussed the acid rain situation at some length. It was encouraging to find that Dr. Brydges, who is dedicated to preserving the lakes and the life in them, is of the opinion that there is little reason for panic in this area. Dr. Brydges is firmly of the opinion that the only real solution of the acid rain problem is by means of control of emissions at the source. But until that time comes liming of the seriously affected lakes will have a place in the efforts to preserve the threatened waters. But proper control will have to be exercised in the introduction of this material to the lakes. It is our feeling that with Dr. Bridges involved in the subject our lakes have a very knowledgeable and concerned champion.

Thanks to the hard working M.P.P. for Victoria-Haliburton Mr. John Eakins, we recieved a very interesting and complete report on the subject of "Alcohol fuel-an energy alternative for Otnario". We do not make any pretence at having the academic or professional background to deal with this subject but a reading and a re-reading of this report convinces that there is much in it that should be of interest to those politicians who have more in their minds than simply party considerations.

It is possible that Ontario, faced with a 10 billion dollar outlay in 1990 for imported oil, could save at least 25% of this amount and keep it right in the province. Thousands of jobs could be provided, and a crippling shortage of oil avoided by developing a program how, to meet the needs of the 1990's. Don't laugh at that 1990's figure, I know tha many of us now here won't be too likely to be around at that time. (each phase of our existance becomes more interesting as time goes by) but our successors could

Woodcraft exhibition now at Rails' End Gallery, Haliburton

From the opening day in July last summer to the end of February this year, 3183 people signed the guest book at the Rails' End Station Gallery. Of these, 1557 were from Haliburton County and 1626 were tourists.

That we were able to put posters and advertising in places of business has certainly helped to bring these people to the Gallery. We think too, tha the Gallery has proved to be a stimulant to business.

We have a exhibition now of wood crafts of all kinds: wood sculpture, furniture, carvings, wood-working, canoe building and wooden toys, which we think is superb.

Advertising... points the way to better buys.

be wondering why a generation like ours failed to take the steps needed to guarentee them against a life lacking in transportation, oil heating, or some other uses provided by oil as we now know it.

We are referring to a scheme to make Ontario partly self sufficient by using one of our greatest natural resorces—wood. The fairly recent development of a hybird popular tree seems to offer the way to an economic development that could make the production of synthetic fuel a serious possibility, and we hope one that Haliburton loggers and woodlot operators will consider seriously for the future of Ontario and perhaps thier own intrest. We will have more on this subject as we study it further and have the input of more qualified people. Don't forget the Airport Committee dance, call now.

AHM Council and Ministry of Housing to meet residents soon

Minden — The council for the Townships of Anson, Hindon and Minden met on Wednesday, April 9th, with the following municipal business transacted.

Council approved by motion, the Rotary Club of Minden's request to erect a banner across the Main Street to advertise their annual Summer Carnival.

Pursuant to a letter from the Ministry of the Environment, council directed that the Certificate of Approval for the Scotch Line Landfill Site be registered on title.

A motion was approved that municipal representatives be authorized to attend the Ontario Renewal Forum to be held in Toronto June 9th to 13th.

A letter was received from C.S. Brandon regarding use of his property for a parking area. Council agreed to do an on-site inspection and report for the next meeting.

Mr. A. Sywak of the Ministry of Housing was present to discuss the criteria to establish a Business Improvement Area for the Town of Minden. Council agreed to hold another meeting with the business people to further discuss the possibilities.

Mr. D. Marucelj and S. Archibald of Totten, Sims Hubiki Associates were present to discuss a revitalization program for downtown Minden. Further information is to be presented at the next meeting.

Council appointed Mr. Fred Chapple a Fire Warden for 1980, replacing Mr. Harold Burton in the Carnarvon area.

Council approved alterations to the By-law office in the Municipal Building. Mr. Don Campbell will install a 4' by 2½' window in the by-law offices exterior wall.

Council gave permission by motion to Mr. Roy Windover, to erect a stop sign on Highland Gate Drive at its intersection with County road #2.

Three quotations were received in reply to the ad

Hydro keeps "TRIM" in 1980

Ontario Hydro three-year-old, internal conservation program, TRIM, has saved enough energy to supply the electrical needs of a town the size of north Bay for a year.

Since the program began in 1976, Hydro has saved the equivalent of 487 million kilowatt-hours with 1979 consumption 21.5 percent below 1976.

"That's a strong indication of Hydro practising what it preaches," says Dave Duncan, TRIM program coordinator.

Compared to 1976, Hydro used 27 percent less energy last year for temperature control and lighting of buildings and an eight per cent cut in fuel use for cars, trucks and machinery.

"We are looking for an even trimmer Hydro in 1980," says Duncan. This year Hydro is examining ways to increase insulation standards in new and existing buildings, using daytime cleaning to reduce lighting at night, and installing high-efficiency electric motors where possible.

"High efficiency motors, which use less electricity, are of special interest to Hydro because over 50 per cent of all electricity produced in Ontario is used by motors," says Duncan.

Another project under review is van-pooling. This concept would have Hydro support the busing of

Hemlock timber takes a walk

HALIBURTON — Sometime during the period of April 4-9th, 1200 board feet of Hemlock 6" timbers were stolen from Biagi's Lumber Mill here.

The lumber was the property of Alpa Lumber of Scarborough. This company owns all the timber at the Biagi yard and the pile of Hemlock has been missing since last week.

for tenders to maintain the Scotch Line Landfill Site. The matter was deferred to the next meeting.

Three tenders were received to supply one 48,000 G.V.W. tandem deisel dump truck to be discussed at the next meeting.

employees to and from work.

Vans carrying 10 to 12 employees would reduce gasoline consumption and save the riders money, while reducing parking needs for Hydro.

"Whatever the program, we have to be serious about conservation," says Duncan, "If Hydro doesn't lead, you can't expect others to follow."

Moose season dates announced

The 1980 moose seasons will open generally later and close much sooner than in 1979, Natural Resources Minister James Auld announced today.

Moose hunting season south of the French and Mattawa rivers will be separate from the deer season this year and open on October 20.

In much of the far north (Albany River areas), where access is limited and hunting relatively moderate, seasons will open September 27 for residents and between September 27 and October 4 for non-residents. Seasons close in those areas on October 31 and November 15 for non-residents and residents respectively.

The seasons in the near north (Red Lake — Lac Seul area) will be from October 8 to November 15 for residents and from October 11 to October 31 for non-residents.

The season in northwestern and north central Ontario will be from October 15 to November 15 for residents and from October 18 to October 31 for non-residents. The eastern part of the Territorial District of Rainy River, where only residents may hunt, will generally open on October 18 and close on November 15.

In the northeast, the area between White River and

Kapuskasing will have an October 18 to November 15 resident season and an October 18 to October 31 non-resident season.

The remainder of the northeast, the area from Chapleau-Kapuskasing-Cochrane south to the north channel of Lake Huron and east to the Quebec border, will have an October 18 to October 31 season for residents and non-residents, with a residents-only season in the unit north of North Bay.

The special archery hunting seasons will again be held this year. The area northeast of Elliot Lake will be open from September 15 to September 30 for residents and non-residents. The area south of Timmins and between Kapuskasing and Hearst will have an archery season from September 20 to October 10 for residents and non-residents.

The primitive-weapons (longbow, crossbow and muzzle-loading firearms) season on the Aulneau Peninsula in Lake of the Woods will be held from October 11 through November 15 for residents and October 11 through October 31 for non-residents.

For further or more detailed information, moose hunters should review the hunting summary to be published later this year, or contact their local district offices of the Ministry of Natural Resources.

Ask Alma

Dear Alma:

My daughter came to visit several months ago and announced that she was taking a trip to Europe. She asked if we would mind (and you know we wouldn't) looking after our 6-year-old grandson.

Sure enough, a few days later, she left on an extended (and I do mean extended) trip. Would you believe that for well over a month we didn't hear a word from our daughter — not a card or a call or an address where she could be reached if we need-

ed her?

Don't you think this was gross lack of consideration? Do you think she is taking us for granted? Do all children take their parents for granted? — Moe in Wheaton

Dear Moe:

Yes. Absolutely. Most do. Are you available from June 1 to July 3rd?

Dear Alma:

Staring me in the face is a jar of home-made barley soup, delivered by my brother because I couldn't make it to the family dinner. To be blunt, there is a whole mess of dead bugs in the

soup and I can see them right through the glass. Guess nobody else noticed.

I'm wondering what I should have said if I'd been at the dinner party. Should I say something now? While you ponder the situation, I shall throw away the evidence and be thankful for the sore throat that kept me home. — A.Y.R.

Dear A.Y.R.:

Fortunately, barley bugs are harmless. Your family will never know the difference if you don't tell them. Spare your hostess the nit-picking, too. Call her and say the soup was delicious.

25 year pins

Ten per cent sales tax removed on all Canadian theatrical and musical performances

TORONTO — The Ontario Government today announced the removal of the 10 per cent Provincial sales tax on admission to commercial Canadian theatrical and musical performances. This change applies to all tickets sold after March 14. The announcement was made jointly by Revenue Minister Lorne Maeck and the Minister of Culture and Recreation, Reuben C. Baetz.

In the past, performances held or staged by charitable or non-profit groups were

exempt from the tax. This exemption will now be extended to any organization sponsoring live commercial performances employing Canadian talent exclusively.

Mr. Maeck said that "the Ministries of Revenue and Culture and Recreation have been looking closely at the issue of retail sales tax on tickets to live Canadian performances for some months now."

"Mr. Baetz and I feel strongly that the step we are taking today will encourage the employment of Cana-

dians in the arts and will be of considerable benefit to the Canadian theatrical community."

Mr. Baetz pointed out that "the Ontario Government strongly supports the development and employment of Canadian talent. We do this in a number of ways — through our HALF BACK program, through Wintario and through our Arts Challenge Fund. I'm extremely pleased to see this further initiative taken to encourage the development of Canada's performing artists."

from page 7

Such is not the case anymore. The 55,000-member Canadian Federation of Independent Business is already battling against the 35% price increase in Ontario and Quebec and will tackle phone companies in other provinces if they attempt to duplicate the process.

Bell Canada already has the highest rates in the country. Now the company wants more, and much of it from the sweat of people operating small and medium-sized enterprises.

What this country needs is more competitive, independent businesses. Canada does not need telephone monopolies that charge what the market will bear, particularly when one considers the present business rate in Quebec City is \$23.15 per month, vs only \$17.95 in Edmonton. Something's amiss.

Mainstream Canada

Bucking Bell Canada

By W. Roger Worth

The executives at Bell Canada have more nerve than Evel Knievel, the prominent showman who wanted to leap across the vaunted Grand Canyon.

For years, Bell has been grossly overcharging (to the rip-off point) small and medium-sized businesses in Quebec and Ontario that are forced to have a telephone service to survive.

This is particularly true when one considers that the lowest rate for the smallest business in the two provinces is an unheard of 300% more than similar residential rates.

Roger Worth is Director, Public Affairs, Canadian Federation of Independent Business.

Now Ma Bell has completely disowned customers operating independent businesses, not even considering the fact that these smaller enterprises create a majority of the country's new jobs.

In its latest proposal to the Canadian Radio-Television and Telecommunications Commission, Bell wants to shove through a 23% rate increase for householders. But for Canada's small and medium-sized businesses, the company believes rates should go up a whopping 35%.

Even now, small entrepreneurs in Montreal and Toronto are being charged \$27.35 per month for a service that is many times used less than the residential telephone.

The present rate for residential service: \$8.55 per month.

To put things in perspective, the differential between the business and residential rates in the U.S. is much, much less, depending on the area, and in Britain the variance in only 18%, compared

to the 300% plus differential in the Ontario-Quebec region. Why is Bell Canada out to

clobber small business? The answer, it seems, is that the company is simply

continuing a process that started many years ago on the assumption that smaller busi-

nesses need telephones and were badly organized, so reaction against such discrimi-

natory pricing policies would be minimal.

If you can provide new jobs for Ontario's youth, Ontario will help pay their salaries.

If you operate a business in Ontario and create new jobs between May 5 and October 26, 1980, you may apply to the Ontario Youth Employment Program for a grant of \$1.25 an hour (up to a maximum of \$50.00 a week) towards the wages of each eligible youth you hire for those jobs.

Here's how OYEP can help. OYEP was designed both for you and young people who want to work. It enables you to hire young people between the ages of 15 and 24 to do extra work for you while we help to pay their salaries.

The maximum grant allows you up to 6,000 man hours of help at each location where application for employment has been made. For example, you could hire 10 young people for 15 weeks each, or 15 young people for 10 weeks each. You must hire each young person for an average of 25 hours of supervised employment per week for at least six weeks.

Eligible employers. You may be an eligible employer if you have been actively engaged in business in Ontario for at least one year prior to May 5, 1980. This

is a requirement for each location where you would like to hire.

Eligible employees.

The young people you would like to hire must be between the ages of 15 and 24. They must reside and be eligible to work in Ontario. They must not be related to the employer as defined in the Ontario Youth Employment Act.

All jobs must be new.

To be eligible for funding, a position created must be in addition to regular and seasonal employment normally provided during the 25 week program period. This may mean special projects in the office, general repairs, research and so on.

Apply early.

Grant funds are limited. Deadline date for applications is July 2, 1980, or earlier if all funds have been allocated. Submit your application as soon as possible. Before you hire, make sure you have written approval.

Need more information?

For complete program guidelines or more information, call or write. We'll be glad to help.

Samantha READS YOUR STARS

ARIES (3-21/4-19): Cupid is up to his favorite antics again; and, though he's not apt to April Fool you, the old full moon may have a few tricks up its sleeve. Be a wise ram and look before you leap in all your relationships, Aries dear.

TAURUS (4-20/5-20): Activities concerning current work/project keep you busy as a bee, Taurus. Then, the sparks fly between you and a certain party. Whether they're the tinges of attraction or the shocking variety remains to be seen.

GEMINI (5-21/6-20): Attend social functions and meetings in week ahead, Gem. You're apt to meet one who can be a great asset to you in a number of ways. Later, listen very carefully to separate the wheat from the chaff.

MOONCHILD (6-21/7-22): Oh, the faces we show the world! Sometimes, Moonbaby, you try to hide your emotions behind a big loud act of aggressive

bravado. The best you is the real you, angel. At least, don't hide from those you love.

LEO (7-23/8-22): Be picky, Leo, and use your talents and energies where they'll accomplish the most for you. Then, keep your eyes open to avoid a possible April 1 zap. Finally, romance comes on strong to win the roses — and the kisses!

VIRGO (8-23/9-22): Money and messages are accented this week, Virgo. If you act fast, you may be able to pull off a real coup. You know the old saw about he who hesitates? It's true! Days close with a will o' the wisp and a whistle.

LIBRA (9-23/10-23): You'd rather work with someone than work alone, Libra; and, because of that, you wrote the book on cooperation. This week you face a challenge to maintaining your reputation. I've a hunch you'll retain your title!

If you were born this week: You are very sociable, are always ready for a party and enjoy being the center of attention. You are a great organizer and an excellent supervisor, but prefer to leave all the boring little details to others. You are impulsive, generous and energetic.

SCORPIO (10-24/11-22): The full moon may have a surprise in store for you, Scorp. Respond to a certain S.O.S. and let your conscience be your guide. Later, tell it like it is. Finally, grab playmate and go search for hidden eggs.

SAGITTARIUS (11-23/12-21): Your week's basket of goodies should hold a minor celebration, an important friend and a secret. A goal is within reach, Sai; keep it in sharp focus to gain it. Later, you're pleasantly distracted.

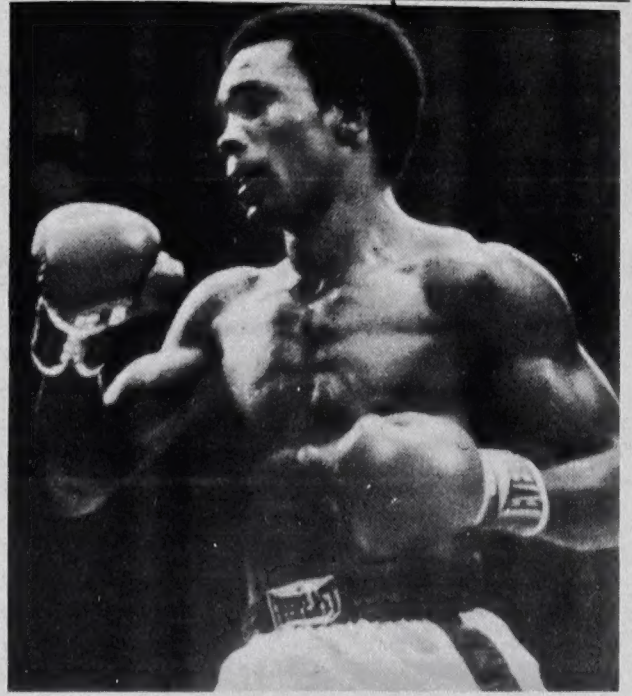

CAPRICORN (12-22/1-19): You're going to have to make a decision, Cappy. You're a past master at finding an angle,

sweetie, but I don't think even you can find a way to have your cake and eat it, too. Later, an unusual occurrence.

AQUARIUS (1-20/2-19): Important news arrives, Aquari, and may open up an avenue you hadn't explored close to home. Later, the bunny hops in with unexpected coins for your piggy bank, and days could taper off with candlelight and roses.

PISCES (2-20/3-20): You have a knack for knowing just how someone is feeling, Pisces. Use this instinct in week ahead. It'll pay off in more ways than one. Later, don your new bonnet and go on parade; you'll be a show-stopper, babe!

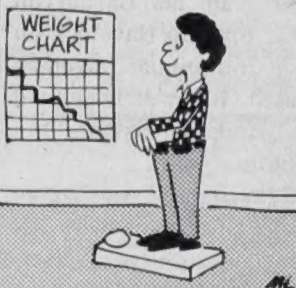

President Benjamin Harrison used to do his own marketing, carrying his groceries home in a basket. His son Charlie would relieve the White House switchboard operator for lunch.

SUGAR RAY LEONARD, the WBC world welterweight champion, is preparing for his eventual showdown with Roberto Duran of Panama. It will be a top money fight between the stylish newcomer (Leonard) and the veteran puncher (Duran).

Ontario announces new moose strategy

A new hunting strategy for Ontario's 1980 moose hunt was announced today by Natural Resources Minister James Auld.

Mr. Auld explained that under the new regulations, hunters will have to share a moose.

"This means a hunter must have a partner, and they must agree to hunt together co-operatively during part of the hunt."

He said that from time to time hunters may switch partners, but must always hunt in pairs in the first part of the regular moose season when hunting pressure is greatest and most moose are harvested.

The Minister said restrictive measures are needed to rehabilitate moose populations because the herd hasn't increased since 1975.

"Moose numbers in most areas are less than the habitat can support," Mr. Auld said.

"This has reduced both hunting opportunities and economic benefits."

He said that development of a comprehensive moose management policy and

plan, scheduled for 1981, is complete enough to partly implement this fall.

"Our immediate objective is to lower the number of animals taken," he added.

After October 31 of the regular gun season, and throughout the special archery and primitive firearms hunts, sportsmen may hunt alone and take one moose per licence.

When a moose is killed by a person "hunting in a party", each of the two hunters must immediately attach the seal provided with their licence.

Once the seals are securely attached through the tendon on one of the hind legs, the corresponding moose licences become invalid.

This same rule applies when a moose is taken by a single hunter in the latter part of the regular season, or in a special season.

Mr. Auld said seasons will be shortened this year by opening them later and closing them earlier.

"This is a short-term, interim action that has strong public support," he said.

"Although it will help to reduce the harvest, long-term plans include more predictable controls," the Minister added.

He said control of hunter numbers in over-harvested areas will provide wildlife managers with one of the tools needed to deal with local conditions.

"Control of hunter numbers in critical areas and more selective harvesting will enable us to lengthen seasons in the future."

"When moose populations increase, we will be able to provide longer seasons. This includes both the moose-calling season in September and snow-tracking later in the fall," Mr. Auld said.

Ontario's moose experts believe the best way to rebuild the herds is to spread moose hunting more selectively across the north.

"Such selectivity, as well as other management techniques, should restore the quality of both viewing and hunting opportunities and provide greater economic benefits," the Minister said.

Ladies Fourth

1000 Lakes men finish 2nd at 10th National Classified

Oshawa — Last week at the Ontario Colt 45 Open Provincial Championships this Zone won the men's and ladies teams championships as well as the ladies singles with Charlene McCormack, and are now off to the World 5-pin Championships, sponsored by Carling O'Keefe Breweries in Western Canada at the end of May.

This past weekend they added another Championship to the Zone by capturing the 10th annual Bowling Proprietor's of Canada, National Classified Provincial Championships. The men's team from central Ontario, comprised of one class one, class two, class three, class four and class five man, narrowly defeated the 1000Lakes men's team by 3435 to 3400. The 1000 Lakes team led by ten pins before the last man on the central team stepped up to roll his tenth frame in the third and deciding game. Brian Kaye proceeded to roll three strikes and end the 1000 Lakes men's hopes of representing Ontario at the World National Classified Championships, to be held in Grand Falls, Newfoundland on May 18 to May 21.

BILL KORZ

OSHAWA — On Saturday afternoon at Oshawa Bowling

This same Central Ontario Zone deprived 1000 Lakes Colt 45 men's team from entering the match play finals in Hamilton last week when they edged them by half a point to take the fourth and final spot.

The Central Ontario men's team is comprised of Bob Snow, Wayne Wixson, Murry Groombridge, W.O. Dell and Kaye.

The 1000 Lakes men's team that came so close to going east in May was represented by Cliff Burk (622) and Neil Jackson (524) of Carnarvon Lanes and Tom Bartlett (678, Ken Mills (657) and Bill Korz (929) of Fenlon Falls. Bill Korz also was the top man bowler among the 12 B.P.A.O. Teams in the Provincials, rolling the high single of 329 and the

high trip le of 929.

The Ladies team that will represent Ontario at the World Championships comes from Kempview Bowl in Barrie. They rolled 3232 to runnerup York Simcoe's 3168. The 1000Lakes ladies team, comprised of Sherry Ruston (545), Kay Osler (731) of Fenlon Falls, Hilda McFarlane (573) and KayBarry (554) of Carnarvon Lanes and Debbie Herr of Peterbourough Bowlerama (725) rolled a fourth place 3128.

The winning Kempview ladies team has Betty Alford, M. Young, Barbara Lee, Marg Cowan and Karen Buttler carrying Ontario's colours to Grand Falls. Marg Cowan rolled the op single among the ladies of 324 and a triple of 792.

Bill Korz led 3 Carnarvon teams to Havelock Invitational

Carnarvon — Bill Korz will lead his Carnarvon Lanes bowling team to Bel Mar Bowl in Havelock on May 27th, to participate in the 2nd annual Havelock Invitational Bowling tournament. Bill will be joined by Dorothy Robinson, Dave and Hilda McFarlane, Ron Robinson Sr. and Audrey Foutain.

The House Round of this tournament was rolled at Carnarvon Lanes on Sunday afternoon, with six teams participating. The format is a pins over average type, where every team, regard less of how good they are at the sport of five-pin bowling, have a chance to win. Each of the six bowlers on the team totals their combined averages and the team that bowls the most pins over this combined average is declared the champion. Korz's team rolled a three-game total pins over average of 310, to edge out a very fine performance by the Monday Golden age 'A' team of Lil Martin, Wanda Carter, Morris MacLachlan, Dorothy Bull and Ira Carter who had a plus 308. Third place went to the Marnie Robinson team, including Eddie Cox, Debbie Allin, Garth and Flo Henderson. This team rolled a plus of 190. Fourth went to Lou Conway with plus 96, fifth was Gord Darby with

Lanes, the 10th annual Provincial Championships in the National Classified Bowling Championships were held. The highlight of the tournament was the performance of Bill Korz of Fenelon Falls, and a member of 1000 Lakes who came through with the top single 329 and triple 929 of the tournament.

plus 6 and sixth went to Virna Wagg with minus 88.

Some of the top individual performances went to Wanda Carter of the Golden Age league who sports a 155 average and rolled a fantastic 215, 253, 156, 634 triple. Dave McFarlane of the champion Korz's squad came through with games of 294, 209 and 241 for a great 744 triple.

Norton announces an additional \$240,000 for children's research

TORONTO — Another seven Ontario-based institutions will receive awards totalling approximately \$240,000 to carry out child-related research, Keith C. Norton, Minister of Community and Social Services announced today.

This grant money is that part of the 1979-1980 allotment from the total \$4 million allocation awarded by the Provincial Lottery for research relating to children's services which is administered by the Ontario Mental Health Foundation. The funds will be used to support and encourage research efforts aimed at helping to improve the quality of services for children.

Additional lottery awards will be made on an annual basis until the original \$4 million is fully committed.

The first part of the 1979-80 allotment (\$161,000) was announced by Mr. Norton on March 6, 1980.

The grants administered by the Ontario Mental Health Foundation have been made as follows:

C. M. Hincks Treatment Centre of Toronto will be-

ceive \$11,897 for the first year of a three-year prospective follow-up study of a group of children who were assessed in 1977 for psychiatric and neurological disturbances. This same population, which includes differing groups of disturbing and non-disturbing children now aged 12, will be tested for social, cognitive, neuropsychiatric and psychological problems in order to determine which children are at risk of retaining their difficulties into adolescence. Specifically, the study is designed to determine the developmental course of the "Hyperactive Syndrome". For further information contact: Dr. H. Golombek, Principal Investigator, C. M. Hincks Treatment Centre, Toronto (416-924-1164).

Thistletown Regional Centre of Etobicoke will receive \$52,500 for the first year of a four-year study to compare the effectiveness of three procedures (token economy, social learning and cognitive-behaviour) for the treatment of these adolescents. It is hoped that the information resulting from

the study will be useful for distinguishing, prior to admission to treatment, between those youths for whom specific treatments may prove successful and those who may receive minimal or non-discernible benefits from treatment. For further information contact: Dr. Steven J. Stein or Dr. S. Jalal Shamsie, Thistletown Regional Centre, Rexdale (416-741-1210).

Ongwanada Hospital of Kingston will receive \$30,000 to carry out a one-year evaluation on the effectiveness of biofeedback procedures, as a supplement to other methods, to train retarded children with multiple physical handicaps in head position, posture, joint, and limb position, and weight bearing. For further information contact: Dr. Noel E. Derrick, Principal Investigator, Ongwanada Hospital, Kingston (613-544-9611).

Child in the City, University of Toronto, in Toronto will receive \$41,368 for the first year of a three-year study to evaluate the Child/Parent Centre of the Jane/Finch Community and Family Centre and conduct a needs assessment as part of the project. The Child/Parent Centre was established to increase the social supports available to families, particularly mothers with preschoolers, living in a low-income high risk community in order to enhance their sense of effectiveness as parents and as families. For further information contact: Susan Hodgson, Principal Investigator, Child in the City, University of Toronto, Toronto (416-978-6895).

Chedoke Child and Family Centre of Hamilton will receive \$40,000 over a two-year period. The purpose of the proposed research is to conduct a follow-up study of a previous evaluation

which compared the outcome and cost-effectiveness of the Parent Therapist Program and two residential treatment centres (Lynwood Hall and Mount St. Joseph's). The Parent Therapist Program is an innovative, family-based alternative to the traditional residential centres for the treatment of very emotionally disturbed children. For further information contact: Dr. J. S. Rubenstein or Ms. F. Pilon, Chedoke Child and Family Centre, Hamilton (416-387-1330 ext. 278).

University of Waterloo will receive a one-year grant of \$26,285 to carry out a research study to construct

a behavioural profile of children who are social isolates (i.e., non-interactive and rejected by their peers) in order to ameliorate possible future social rejection and isolation. For further information contact: Dr. Kenneth H. Rubin, Department of Psychology, University of Waterloo, Waterloo (519-885-1211, ext. 3912).

Carleton University of Ottawa will receive a one-year grant of \$38,744 to conduct a study to determine the most effective feedback techniques for three levels of learning difficulty with three subgroups of exceptional children, namely children identified as being

mentally retarded, as having a low Socio-Economic Status (SES) and as having behaviour problems. This study should provide information about optimal treatment and training methods for these children. For further information contact: Dr. Robert M. Knights, Department of Psychology, Carleton University, Ottawa (613-231-5587).

Norton announces 10% increase in social assistance rates

TORONTO — The Honourable Keith C. Norton, Minister of Community and Social Services, today announced increases in the allowances paid 171,000 individuals and families under Family Benefits and General Welfare Assistance.

The increases average 10% for recipients of both programs, except for single, employable persons on General Welfare Assistance whose allowances remain at the present level.

"The new amount will be reflected in the Family Benefits cheques, which include GAINS-D recipients, issued at the end of April. Increases to General Welfare allowances will appear in cheques issued at the beginning of May," Mr. Norton said.

The increased allowances will benefit about 115,000 recipients of Family Benefits and 56,000 General Welfare recipients. Eligible Family Benefit recipients include disabled, blind and elderly persons, mothers with dependent children, and persons who are permanently unemployable for medical reasons. General Welfare Assistance covers individuals and families requiring assis-

tance due to illness, lack of the principal family provider or unemployment.

"Because we are dealing with limited resources, we have decided to allocate these increases to those most in need and most vulnerable," Mr. Norton added.

He went on, "Single employable persons on General Welfare Assistance tend to be on the program short periods of time, have more flexibility and are more available for part-time work. In addition, they do not incur all of the expenses of longer-term recipients. For these reasons I have decided to keep their allowances at current levels and provide the available money to groups without this flexibility, such as the disabled and mothers of dependent children."

As well as the general rate increase, back-to-school allowances will rise from \$30 to \$35 for children aged four to 12 and from \$60 to \$65 for children 13 and over. The maximum level of the allowance to maintain a severely handicapped child at home will increase to \$175 per month from \$150, an addi-

tional 16.7%. This means that recipients with needs in excess of \$150 will be eligible for an increase of up to \$25.

Mr. Norton concluded, "The last rate increase was in January 1979. My Ministry is constantly monitoring the levels of our income maintenance programs, and we will continue to adjust them periodically to help account for increased living costs. However, in making these adjustments, my Ministry must also maintain its fiscal responsibility to Ontario taxpayers."

The Family Benefits program is administered, and funded by the Ministry of Community and Social Services with cost-sharing provided by the Government of Canada. The General Welfare Assistance program is administered at the municipal level and also funded 20% by municipalities. The remaining 80% is provided by the Ministry of Community and Social Services with cost-sharing by the Federal Government.

These increases will cost the Province about an additional \$54 million per year.

Look who's stealing your electricity.

If there's more than .6 cm. (1/4 inch) of frost in your freezer, you're putting energy on ice. Regular defrosting is easy to do and it's easier on the fridge.

Use Energy Wisely

Tune-up, clean up. It's simple. Appliances that are clean and well-cared for last longer and use less electricity. Over the long run, you can save money on appliance replacement. And of course, the less energy you waste, the more dollars you save.

Don't waste your energy.

ontario hydro

Heavy dust on your refrigerator coils makes it work harder to keep its cool. An occasional vacuuming of the coils behind or underneath the refrigerator can help it last longer and it won't use more electricity than it has to.

Take the \$1 bill test. Shut the door of your fridge on a dollar bill. If the bill pulls out easily cold air can flow out too, adding to your energy costs. The fridge may need a new gasket or the solution may be as simple as making sure the appliance is level.

Letters to the Editor:

High interest rates hurt farmers

Letter to Bill Scott, M.P.

As a farmer in Victoria County for many years, my family and I have built up a sizable farm operation with much hard work, and long hours, as a pork producer.

In the past few years we have expanded our operation so that we would have an operation that would support our family and my sons could continue to farm. But in the last few months with the interest rate on operating loans going up in leaps and bounds the possibility of our plan becoming a reality is very quickly becoming a nightmare.

With each passing week as pork prices continue to decline interest rates climb beyond all reason. My feelings and that of other farmers in the area are that if interest rates cannot be brought down to a reasonable rate then a lot of farmers, particularly, young farmers, are going to be pushed out of business and in the long run this can only lead to higher food costs.

Although at this time meat prices may be low, they may soar higher than ever.

I wonder if there are many more farmers in the County who feel as I do about these

ridiculously high interest rates and would they sit down and take the time to write you about their feelings instead of standing around the sales barns on Mondays and Fridays griping and complaining to each other, but never writing to you our Member of Parliament and expressing their views, where it just might do some good.

And in closing, may I say that food is a necessity, not a luxury.

Yours truly,
Lorne Lawder
and Sons

The Camping Season is almost here!

Don't be caught late!

PRENTICE ROADS LTD.
have the following
